

Do not use solid or liquid fertilizers. Do not expose the IDRIS irrigator to frost or extreme heat. Do not expose the bottle to sunlight. Clean with water, but do not use chemical solvents. Dry thoroughly after washing. Select the dripper most suitable for the type of plant.

<b>10 cl</b>		<b>MINIMAL WATERING - 10 cl per day</b>			
	Cineraria	Nasturtium	Zinnia		
	Cactus	Poinsettia	Ivy		
	Sanseveria	Euphorbia	Tagetes	Fatsia	
<b>15 cl</b>		<b>MEDIUM WATERING - 15 cl per day</b>			
	Anthurium	Croton	Kenzia		
	Aspidistra	Dracena	Spatifilum		
	Chamaedorea	Gardenia	Clivia	Jasmine	

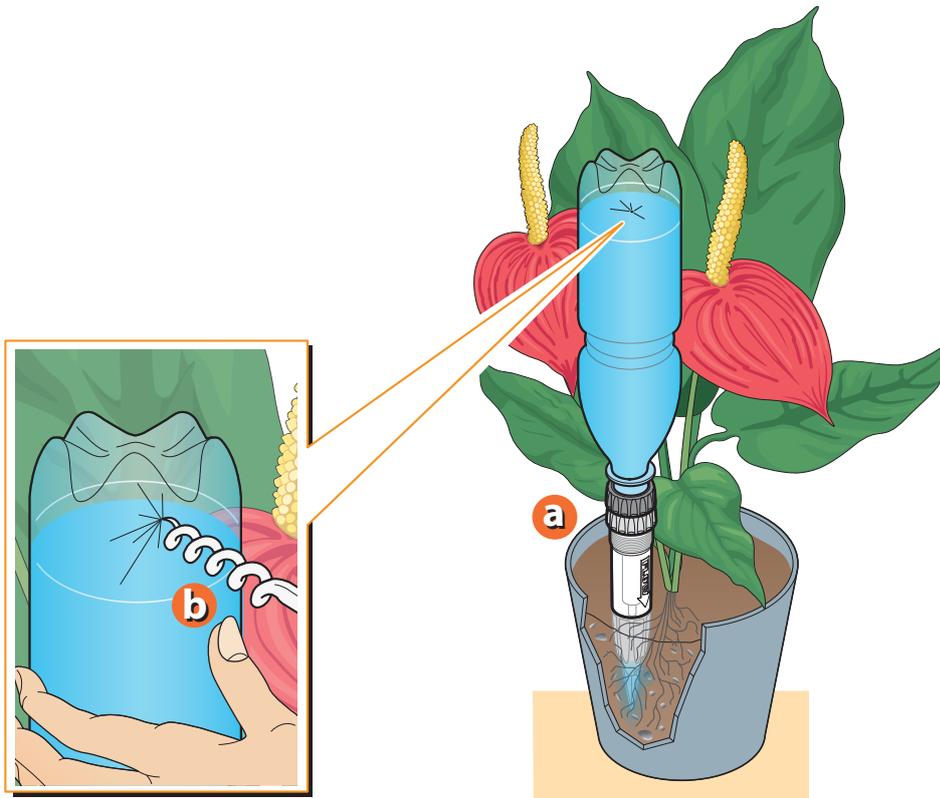

For Idris Spike (cod.): 8052

Fill the plastic bottle with water. Select the adapter compatible with the thread of the bottle. Screw the IDRIS tripod onto the bottle.

For Idris Spike (cod.): 8052

Anchor the tripod into the soil and pierce a small hole in the base of the bottle. The IDRIS tripod and bottle will stand perfectly stable in the pot. When the bottle is empty, simply fill it up again.
